For info and registration: info@ecobnb.com - <http://ecobnb.it/blog/ecodots>

Tourism sector is rapidly growing and its **environmental impact** is expected to become increasingly important in the coming years, if you do not act in an environmentally friendly way.

At the same time, Tourism is certainly one of the sectors that can provide a valuable contribution to the **sustainable growth enhancement** and job creation in the EU.

EcoDots is the project co-funded by the EU which creates a **European web platform** (<http://ecobnb.com>) capable of acting as a catalyst for a community of eco accommodations, tours operators, and local communities sharing similar visions and values, and meeting harmonised sustainability standards.

Ecobnb is the meeting point between travelers and responsible hospitality that are investing in a better future. The innovative network of eco-sustainable hospitality and green itineraries in Italy, Austria, Switzerland, Germany, Slovenia and Serbia, promotes the demand for sustainable tourism and involves people who share visions of sustainable tourism in Europe.
