Ecobnb is a social enterprise with the aim to promote **Sustainable Tourism** and to incentivize ways of travelling that respects the nature and the local people.

Ecobnb is the meeting point between responsible travellers and accommodations that are investing in a better future.

More than 3000 green accommodations in 53 countries

Bio farms, eco-friendly **hotels,** glamping surrounded by the nature, **multi-building hotels** inside ancient villages, ecological bed & breakfasts and the holiday houses with zero emissions.

The eco-standards

The eco-friendly accommodations are selected based on the 10 main internationally recognized eco-standards.

These eco-standards are obtained by the comparison with different European Ecolabels of Tourism:

- From the organic, seasonal food to pure energy, from the accessibility to the waste management...

Sustainability scores

On our website, you can find a clear and straightforward explanation of every accommodations' eco-sustainability score.

For example, if a hotel has organic food or 100% renewable energy, whether it can be reached without public transport, or if it uses natural products for cleaning.

Ecosustainability

- ✓ Bicycle rental service ?
- ✓ Geothermal Heating ?
- ✓ Supporting the local economy ?
- ✓ Promoting "eco" activities ?
- ✓ No single dose ?
- ✓ 100% renewable energy ?
- ✓ Organic or Local Food ?
- ✓ Car-free accessibility ?
- ✓ Ecological cleaning products ?
- ✓ More than 80% waste recycling ?
- ✓ Energy saving lights ?
- ✓ Green building ?
- ✓ Solar thermal panels for hot water ?
- ✓ Water flow reducers ?
- ✗ Recovery & reuse of rainwater ?
- ✓ Recycled paper ?
- ✓ No disposable packaging ?
- ✓ Towel change on request ?

Ecolabels and certifications

Many accommodations on Ecobnb have some other environment certifications and eco-labels, for example:

- Ecolabel Fiore Europeo
- Aiab Agriturismo Bioecologico
- Eco Bio Turismo ICEA
- Steinbock Label
- La Clef Verte
- Eco-certification Malta
- Audubon International
- Bioshpere
- Nordic Ecolabel or Swan
- Das Österreichische Umweltzeichen für Tourismusbetriebe

Commitment towards the planet

For every night spent inside an eco-sustainable accommodation, we save water; we reduce waste, and CO2 emission corresponding to **8 kg/day/person**.

The Eco Gift Cards of Ecobnb

Ecobnb offers a protected, evolving and personable platform to reward your clients, colleagues and to promote your products.

You can **gift vouchers** in different values (10 £, 50 £, 100 £, etc.).

Why give a green experience as a gift?

It is an excellent choice to gift an **eco-responsible journey** for the person who will receive it and for the one that offers it!

- Just look at the **3 following advantages:**

1. The “Perfect” gift

This isn't a gift that will remain in the drawer.

By gifting travel through EcoBnb, you will offer a **unique and unforgettable experience** and will always remind the other person of you. It can also be used in periods of high season or holidays, subject to availability verification.

2. The “Green” choice

By offering a green travel experience, you can contribute to the reduction of the **CO2 emissions** of tourism.

The estimates of the European Commission tell us that the waste produced during the holidays increases well by 30%.

Choosing a **dematerialized gift** compared to a traditional one is considerably reducing waste.

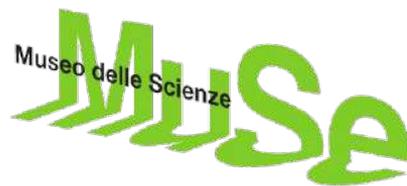

3. Improve your “*Corporate Social Responsibility*”

Show your clients and colleagues your **engagement** for sustainability!

Show your **support** of the type of tourism that promotes the environment and the local businesses!
